PROFESSIONAL SUMMARY

Agricultural Engineering graduate with hands-on analytics projects using Python, SQL, Microsoft Excel and Power BI. Skilled in data cleaning, exploratory data analysis, statistics and dashboard development. Completed the Data Analytics portion of an ongoing Data Science with Generative AI and Agentic AI program. Seeking an entry-level Data Analyst role to support business decisions through data analysis and reporting.

TECHNICAL SKILLS

Programming and analysis: Python, Pandas, NumPy, data cleaning, exploratory data analysis (EDA)

Databases: SQL, MySQL, MySQL Workbench

Visualization and reporting: Power BI, DAX, Matplotlib, Seaborn, Microsoft Excel, PivotTables

Statistics: Descriptive statistics, hypothesis testing

Project tools: Jupyter Notebook, Scikit-learn, Streamlit

ANALYTICS PROJECTS

Sales Performance Analysis and Interactive Excel Dashboard | Microsoft Excel

- Cleaned, organized and analyzed 9,994 sales records to examine sales, profit, quantity and profit margin.
- Built PivotTables, KPI calculations, charts and interactive filters to explore category and state performance and monthly trends.

Power BI Sales Analytics Capstone | Power BI, DAX

- Developed an interactive dashboard covering revenue, profit, cost, orders, customers, products and regional performance.
- Created DAX measures for year-to-date revenue, previous-month revenue, month-over-month growth and profitability analysis.

Tamil Movie Recommendation System | Python, Pandas, Scikit-learn, Streamlit

- Processed Tamil movie and rating data with Pandas and implemented movie recommendations using Scikit-learn.
- Built an interactive Streamlit interface and deployed the application online.

EDUCATION

B.Tech in Agricultural Engineering | The Kavery Engineering College

2022 - 2026 | 85%

Higher Secondary (HSLC) | AMMH School, Krishnagiri | 2021 - 2022 | 74%

Secondary School (SSLC) | AMMH School, Krishnagiri | 2019 - 2020 | 98%

INTERNSHIP EXPERIENCE

Project Intern | Green Resource Solutions | January 2026 - April 2026

- Worked on a sensor-based gas leak, flame, smoke and human-presence detection system with automatic shutoff for LPG and biogas stoves.

Inplant Training Intern | Sai Lakshme Milk Products (AAHHAA) | March 2024

- Gained practical exposure to dairy processing, quality-control procedures, process documentation and monitoring of operational and quality parameters.

ENGINEERING PROJECT

Smart Gas Leak Flame Smoke and Human Presence Detection System

Technologies: Arduino, gas sensors, smoke sensors, flame sensors, PIR sensors

- Developed and tested a multi-sensor safety prototype with automatic gas shutoff through a relay-controlled solenoid valve.
- Research published in the International Research Journal on Advanced Engineering Hub (IRJAEH), Volume 04, Issue 04, April 2026.

TRAINING AND CERTIFICATIONS

Data Science with Generative AI and Agentic AI | Ongoing

- Completed the Data Analytics portion covering Python, SQL, Excel, Power BI, statistics, Pandas, NumPy, exploratory data analysis and data visualization.

Certified Innovation Ambassador | Foundation and Advanced Levels

Ministry of Education Innovation Cell and AICTE

PUBLICATIONS

Research Publication

Sensor-Based Smart Gas Leak, Flame, Smoke and Human Presence Detection System with Automatic Shutoff for Biogas and LPG Stoves

International Research Journal on Advanced Engineering Hub (IRJAEH) | April 2026

DOI: 10.47392/IRJAEH.2026.0301

Book Publication

Author and Co-editor, Tamil Poetry Collection | First edition: September 2025

ISBN: 978-93-49960-96-1

ACHIEVEMENTS

Best Scalable Business Model | Pitch Fest, Sri Eshwar THIRAN 2025

Sri Eshwar College of Engineering, Coimbatore

LANGUAGES

Tamil: Native or bilingual proficiency | English: Professional working proficiency
